SKILLS

- Web Development
- Mobile Application Development
- Project Management
- SAP ERP

EDUCATION

Universitas Multimedia Nusantara

Bachelor's Degree, SAP ERP in Computer Science, 2016 - 2021

EXPERIENCE

Backend Engineer
Tech Stack: Node, NestJS Framework, React, Docker, MongoDB, AWS

LARUNO - laruno.com | 2020 (August - December)
Tangerang

I mostly work on back-end development using NestJS Framework to handle the back-office.

Lead Developer
Tech Stack: Node, PHP, Laravel Vue, MySQL, AWS

Magenta - magnagemilang.com | 2019 (October) - 2020 (July)
Remote

I led all of the developers in my team to deliver the highest quality both software and server infrastructure at a low cost to maintain and continue to do so in the development.

Web Developer
Tech Stack: Node, PHP, Laravel Vue, React Native, MySQL

Fiture - fiture.id | 2019 (July - August)
Jakarta Barat

I worked in a team that consists of 5 developers building an integrated business system (Sales Force Automation).

Software Engineer
Tech Stack: Go, React, Docker, Traefik, PostgreSQL, AWS

Sutike - sutike.id | 2019 (August) - 2020 (January)
Tangerang

I handled all over the tech-architecture and RESTful APIs to provide some services that can be used for end-to-end testing to ensure that the integrated all components are working as expected.

PERSONAL

I worked as a freelance in web development (full-stack, back-end preferred) during college that received a few clients to help their business logic and learnt so many things in business, also I helped my friend to run a community called EvoniX and built a multiplayer game server that gained 9,941 users registered and 6,666 active users. I have built a web application that related to SAP ERP like Sales Force Automation, Production Planning, Material Management, Sales and Distribution, and Project System.

I usually do sports, playing games, watching movies, and learn something new during my free time.
